What to Expect by Payment Type

- **Virtual Card (VCN):** When funding and approvals are complete by cutoff, cards are issued the same business day. Vendors must process the card to complete payment.
- **ACH:** Follows standard U.S. banking holidays.
- **Checks:** Printing and mailing follow business days and carrier schedules. No mailing occurs on federal postal holidays. Submitting earlier helps protect mail dates, especially in regions impacted by hazardous weather conditions.

ACH Holiday Pause: Fraud-Prevention Safeguards

The holiday season is a high-risk period for payment fraud, especially business email compromise and unauthorized bank changes. To protect clients and suppliers, Corpay will pause new ACH enrollments, ACH bank account change and maintenance requests from 11/17/25 through 1/16/26.

What's impacted:

- ACH updates where bank information is not already on file (new set up and changes).
- New ACH enrollment requests where banking information is not already on file.

What's not impacted:

- New ACH enrollments for Accelerated ACH or Corpay Direct.
- Customer liability enrollments (employee, print check bypass, international).

How we'll support you:

- For urgent payments, alternatives such as virtual card, print-check bypass, and Accelerated ACH remain available.
- ACH change requests will resume the week of 1/16/25.
